

BELASSI

burrasca

The natural environment of Belassi personal watercraft is the rideable water in all its forms. Especially the challenge of the waves became the main concept and inspiration of the naming for **Burrasca**, which is the Italian name for Storm - the expression of an indomitable force of nature that conveys emotions and deep thoughts.

[pronunciation: /bur'rasca/]

burrasca

For your experience
over the limit.

the Philosophy

Belassi is a lifestyle, an individual way of living. Immersing yourself in the world of Belassi gives insight into the Austrian Manufaktur, where engineers meet artisans. We aim to combine the strengths of engineering and technology with the uniqueness of true craftsmanship.

A person riding a red jet ski on a body of water at dusk or dawn, with a large industrial building in the background.

the Company

Located in the engineering heart of Austria, Belassi looks back on a heritage of high performance products. The new state-of-the-art development centre in Linz lays the foundations for our own engine development, product design and engineering. Belassi is unique in its specialisation in personal watercrafts.

Burrasca

Aggressive, tough, self-confident, elegant, unique in its style, Burrasca is the result of research and attention to details, to provide high performance and excitement while riding it.

In Belassi we believe that it takes a lot of passion and creativity to put together over 2000 pieces which our Burrasca is made of. Just like Leonardo da Vinci once said: "Art should walk alongside the Science", hence, in Belassi, all our units are still **hand-assembled one by one**, but with the support of the latest technology and expertise.

Technical Specifications

Engine	I3C16, Marine 3 cylinder 4 stroke
Displacement	1602 cc
Intake System	Turbocharged with watercooled intercooler. Multi-point fuel injection
Cooling System	Open loop cooling for engine, intercooler and exhaust injection cooling
Rider Capacity	2 persons
Weight (dry)	364 kg
Dimensions	Length = 364 cm / 143 in Width = 119 cm / 47 in Height = 116 cm / 46 in
Fuel Capacity	60 L

Burrasca

We enjoy the roar of the engine,
we stare at the details of the hull,
we daily test the improvements of the PWC on water.

When a Burrasca is delivered, it's not just a sold product, it feels like giving birth to something that will give emotions to the owner.

Our customers feel the power in their hands, hear the roar while they are riding the waves, and enjoy the beautiful design with their eyes.

New opening system for service and inspection:
the hood can be lifted to reveal the engine
compartment allowing comfortable position.
