

SUNSTREAM®
SWIFTSHIELD™
A-SERIES

THE FIRST BOAT COVER YOU WILL LOVE TO USE.
 Exclusively for the Sunstream® SunLift™

Imagine lifting your boat with a touch of a transmitter button, and when your boat reaches the top, a full cover is put on for you, covering the sides and back of the boat as well. No more hassling with multiple covers or snaps. Not only is it effortless, it offers unparalleled protection to your boat from sun fading, birds, critters and debris. Boating is now seconds away, as your boat will be uncovered and launched by the time you walk down the dock! You will use your boat more often, clean it less, and keep it looking new longer.

ULTIMATE CONVENIENCE
 Cover or uncover your boat with just one button.

COMPLETE PROTECTION
 Protect your sides and stern from fading.

ONE TOUCH OPERATION

- Fast and easy hydraulic covering/uncovering of your boat
- Operate your Sunstream® SunLift™ and SwiftShield™ with the same remote control

ATTRACTIVE PROTECTION

- Complete protection from sun, weather, bugs, birds, and leaves.
- Covers boat close to waterline to protect against color fading
- Does not block views
- Better security for the boat's interior

DURABLE DESIGN

- Spring mechanism and tension control keeps the cover tight for superior protection
- Cover is stored on mechanism instead of boat for easy covering/uncovering

AUTOMATIC BOAT COVER
 PATENT PENDING
